PROFESSIONAL SUMMARY

I build interactive and engaging 3D websites and mobile applications, using both native and cross platform frameworks, while also actively contributing to college clubs and teams, where I have gained experience in communication, teamwork and coordination. I am interested in DevOps and currently exploring Linux, networking tools, scripting and system configuration.

TECHNICAL SKILLS

Programming Languages: Python, C/C++, Kotlin, Dart, Java, Bash
Frontend & Web Development: HTML, CSS, JavaScript, React
App Development: Jetpack Compose (Native Android), Flutter (Cross-Platform)
Machine Learning: NumPy, Pandas, Scikit-learn
Databases: MySQL, PostgreSQL, SQLite
Tools & Platforms: Git, GitHub, Linux (Arch), Docker, Neovim
Design & Creative Tools: Canva, DaVinci Resolve, Blender, Figma

EXPERIENCE

Web Development Intern | *DevIT* | [Verify](#)

Worked as a part of development team, contributing to responsive frontend development and UI/UX design for HippocampOS, a personal lifestyle management platform integrating areas such as finance, health and habits.

AI/ML Intern | *InternPe* | [Verify](#)

Gained hands-on experience in data preprocessing, training and evaluating machine learning models using Python, NumPy, Pandas and Scikit-learn, involving classification, regression and SVM techniques.

Graphic Design & Digital Marketing Contributor | *Beige and Black, Kurnool (Clothing Brand)*

Designed promotional posters and social media content using Canva, Figma and Davinci Resolve, while contributing to digital marketing and strengthening the brand's social media presence.

PROJECTS

Peer-to-Peer Anonymous Messenger | *Kotlin, Jetpack Compose, SQLite, Rust* | [GitHub](#)

Implemented an anonymous messaging application that establishes direct encrypted connections through Tor V3 Onion Services. Integrated the Jetpack Compose Android client with an asynchronous Rust networking core using JNI for secure communication.

Personal Finance Manager | *Kotlin, Jetpack Compose, RoomDB* | [GitHub](#)

Created a finance tracker that models transactions as nodes in Git trees for balance and spending. Implemented RoomDB for persistent local storage and notification parsing with weighted keyword scoring and sender validation to detect and categorize transactions.

Personal Attendance Tracker | *Flutter, Dart, Shared Preferences* | [GitHub](#)

Built a cross-platform attendance tracking application that enables students to track subject wise and overall attendance percentages, maintain a 15-day attendance history, upload timetables and store data persistently offline using SharedPreferences.

Training & Placement Cell, GPREC Website | *JavaScript, React, Node.js* | [GitHub](#)

Developed a centralized platform for the college's Training and Placement Cell to manage and provide information on placement drives, faculty, alumni, current coordinators and past events, serving as a digital record of the club's activities.

POSITION OF RESPONSIBILITY

Training and Placement (T&P) Cell, GPREC | *Placement Coordinator*

Coordinated Internship and Placement drives by serving as point of contact between students, recruiters, HR's, faculty and alumni.

Center for Innovation & Entrepreneurship (CIE) Cell, GPREC | *Student Coordinator*

Led Entrepreneurship focused events and initiatives by connecting with startups, entrepreneurs, speakers and organizations.

EDUCATION

G. Pulla Reddy Engineering College (Autonomous), Kurnool

Bachelor of Technology in Computer Science (Data Science)

September 2023 - 2027*

CGPA: 7.82

CERTIFICATIONS & INTERESTS

Certifications: Python, Java & HTML (IIT Bombay), Entrepreneurship (NPTEL)

Languages: English, Hindi, Marathi, Telugu

Interests: Reading, Writing novels, Graphic design
